

CONSTRUYE 2020!

SPANISH ROADMAP

1 STRATEGY

2 E-COMMUNITIES

3 ROADMAP

Keys:

AF: Training Action
IF: Itinerary Training
RF: Training Resource

A1. TA on profitable economic parameters in EE
A2. TA on the impact on the consumption and energy billing

A19. Observatory for prospecting employment and skills in the EE and RE field
A20. Thematic networks of experts through the use of ICT
A21. IF of trainers' technical requalification in EE and RES
A22. Global training plan "Construye 2020".
A23. Design and development of professional certificates in e-learning
A24. TR multimedia for the installation of heat systems through the combustion of biomass
A25. TR multimedia for the installation of geothermal energy heat systems
A26. TR multimedia for the installation of RES as the athermal and solar thermodynamic

A3. IT "Placement of indoor and outdoor insulation and sealing of joints according to CTE for construction operators"
A4. TA "Assemblers in EE hollow façade enclosures with aluminum carpentry and PVC".
A5. IT "Installation and maintenance of heating and highly efficient hot and cold water systems"
A6. TA "Energy efficiency in buildings"
A7. TA "Installation of lighting systems according to CTE"

A8. TA "The renewable energy systems in buildings"
A9. IT "Installation and maintenance of heat generation systems through geothermal energy"
A10. IT "Installation and maintenance of heat generation systems through biomass"
A11. IT "Installation and maintenance of aero thermal and thermodynamic solar installations for building"
A12. IT "Energy management of building facilities"
A13. TA "Installation and maintenance of high performance heat pumps"

A14. Monitoring and development network of professional skills in the national and EU level.
A15. Integrated platform of information and guidance in the SNCFP field
A16. Quality assessment of the SNCFP
A17. Review of existing qualifications in the EE and RES field
A18. Skills development and certifiable associated training: geothermal

Toward 20-20-20

4 Plan of action
